New Directions in Scholarship: Science / Gender / Race / Nation
Monday, May 5, 2008

The speakers in the morning focused on the theme, "Exploring Gender / Race / Nation / Science." During lunchtime, graduate students from four different departments presented research relating to gender and science. The afternoon panel focused on "Intellectual Property / Bio-prospecting / Genomics." There was a concluding social hour with participants in a parallel conference on "Global Values for Global Health."

The conference was co-sponsored by the Science, Technology and Society Center, the Department of Gender and Women's Studies, the Beatrice Bain Research Group, the Center for Race and Gender, International and Area Studies, and the University of California Humanities Research Institute.

Nature, Nurture, Neither: Reconceptualizing Sex, Gender And Sexuality
Monday, March 2, 2009
Keynote Address, followed by a reception

Anne Fausto Sterling - Professor of Biology and Gender Studies, Brown University

Organized by Gender and Women's Studies Li Ka Shing Program in Gender and Science; Co-sponsored by Science, Technology and Society Center and Beatrice M. Bain Research Group

Being Paid To Do A Job, Provide A Service, Or Give A Gift:
Egg And Sperm Donors' Perceptions Of Compensation
Tuesday, March 31, 2009

Rene Almeling - Robert Wood Johnson Foundation Health Policy Scholar, UC Berkeley/UCSF and Assistant Professor of Sociology, Yale University

Organized by Gender and Women's Studies Li Ka Shing Program in Gender and Science; Co-sponsored by Science, Technology and Society Center, Berkeley Center for New Media and the Robert Wood Johnson Foundation Scholars in Health Policy Research Program
Invisible Earthlings
Tuesday, April 14, 2009

Speaker: Beatriz da Costa - Associate Professor, Arts, Computation, Engineering Graduate Program, UC Irvine

Introduction: Greg Niemeyer - Associate Professor, Art Practice, UC Berkeley and Berkeley Center for the New Media

Commentary: Ilse Ruiz-Mercado - Ph.D. Student, Civil and Environmental Engineering Systems Program and the School of Public Health, UC Berkeley

Beatriz da Costa will present her new work, an investigation into the possibilities of relating between humans and members of the lived non-human worlds that we are least likely to recognize as social actors within urban environments: microbes.

Organized by Gender and Women's Studies Li Ka Shing Program in Gender and Science; Co-sponsored by Science, Technology and Society Center and Berkeley Center for New Media
